I have no edits to offer and don't have any spawning BB salmon pictures of my own. I agree that that the second picture is good but I don't know its origin.

Subject: Review of draft BB Assessment write-up for 2011 OWOW Report

Folks:

Each year OWOW puts together a glossy report highlighting significant accomplishments during the year. For the 2011 report, I've been asked to put together a short write-up describing the launch of the BB assessment effort.

Attached is a first cut at that. Please provide me with your edits by COB 1/12. Also I would really like to include an interesting photo of sockeye salmon spawning somewhere in the Nushagak or Kvichak watersheds - please pass along a photo with location and photo credit information if you have one.

Thanks, Palmer
